

Hearing Loss Awareness Training

Expert training and support services for
individuals and organisations

Hear for Norfolk is dedicated to improving the emotional well-being, communication, and the overall quality of life of people with hearing loss and related conditions. We provide practical and emotional support, advice and information through a range of community based and outreach services.

We are here to help. Within Norfolk, it is estimated that there are 201,500 people with hearing loss (2019 ONS estimate), which equates to 22% of Norfolk's population. Some people wear badges to show they are reliant on lipreading, some wear hearing aids and some may not highlight their hearing loss at all.

Your customers, clients, service users, colleagues, friends or family may be having difficulty hearing and understanding you. By providing the right support (often with simple steps) you can make your environment more inclusive for those with hearing loss.

"The feedback from staff has been really positive. They felt the session was extremely beneficial. Excellent course! Very interesting, informative and interactive"

"Very clear information and great interactive sections, which gave a clear understanding of how hard hearing loss can be"

Through presentations and interaction with our experienced trainer, participants will gain an understanding of what causes hearing loss, the challenges faced by people experiencing hearing loss, the impact hearing loss has on people's well-being and communication, and learn simple ways to make communication easier for and with those with hearing difficulties.

The session also provides information on assistive listening devices available that can be used in the home environment, education or workplace.

Individuals only £30+VAT p/p including refreshments & materials. Organisations at their premises only £500+VAT for a group of maximum 16 people, unless otherwise agreed.

As a non-profit organisation, all income goes to running and improving services for the Norfolk community. We offer excellent Hearing Loss Awareness Training and great value for money for individuals and organisations across the county.

WE WOULD LOVE TO HEAR FROM YOU...
