

Expertly fitted protection for water, noise and sleep

Supporting people with hearing loss and related conditions

Custom ear plugs are the solution for you!

Water Barrier Hearing Protection
dB Hearing's custom floatable WaterBarrier™ swim plugs and earplugs for water protection form a watertight seal to prevent water entering the ear canal whilst showering, swimming, diving, windsurfing, water skiing, or participating in ironman, triathlon or other water sports.

Anti-bacterial coating, packaging, introduction sheet, case and skin care gel included with purchase.

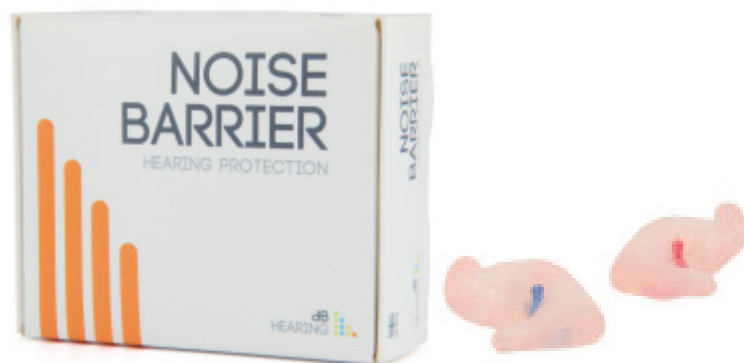

Snore Plug Hearing Protection

The SnorePlug™ is the ideal way to block out noise. It can be worn comfortably all night and **greatly reduces noise entering the ear allowing a peaceful night's sleep for the wearer.**

Noise Barrier Hearing Protection

The NoiseBarrier™ contains an acoustic filter designed to reduce the intensity of sound waves as they get stronger, while still allowing air and sound to pass through. NoiseBarrier™ is **suitable for environments where excessive noise is an issue including musicians/vocalists, attending concerts/clubs, working environment, motorsport/motorcycling, flight plugs for pressure and stress relief, shooting and machine/power tool operation.**

Prices start from £60* (*dependant on the model). For any further information, or should you wish to speak to an audiologist about custom ear plugs, please contact us at

audiology@hearfornorfolk.org.uk or call us on 01603 404440.

Ear impressions are required.
